

World-Class Delivery in Ship

Dry Docking and Repairs

OUR CORPORATE PROFILE

STARZS
STARZS MARINE & ENGINEERING LTD.

★ Ship Repairs ★ Shipyard Consultants

About Us

Starzs Marine & Engineering Limited (SMEL) is a limited liability company incorporated in Nigeria on 28th October, 1992. SMEL is the operator of Starzs Shipyard, the oldest privately-owned indigenous ship repair yard in the country, which is located in the Oil and Gas Free Zone Onne, Rivers State. The shipyard occupies a total land area of 7.38 hectares with approximately 210m of waterfront. Currently the company operates with a 500 tons Floating Dock.

The Company provides dry docking and afloat repair services to Nigerian Shipowners, Nigerian Regulatory Agencies such as NIMASA and NPA as well as the Nigerian Navy. Since inception, it has successfully carried out over 900 dry docking projects with a wide array of work scope.

The Shipyard also provides non-ship related engineering works and Maritime consultancy services to the Oil and Gas Industry in Nigeria. Fabrication of Barges and Jackup Rig afloat repairs has been carried out by the Shipyard. As a fully indigenous company with a 100% Nigerian workforce, we support the continuous development and training of Nigerian Maritime cadets providing training opportunities for over 30 trainees annually.

In all its business and social activities, Starzs Marine's driving force remains its vision to constantly provide the highest quality service to the ship repair sector of the Nigerian Maritime Industry thus supporting the growth of the Nigerian Economy.

*"...your committed partner for international services
and quality delivery in ship repairs".*

Our Vision & Mission

Our Services

Ship Repairs

At Starzs Shipyard, we guarantee short lead times, high quality work and as a result, minimized vessel downtime. We have first-hand experience with almost all vessel repair activities and our team of engineers, craftsmen and dedicated project managers ensure a quick, safe and reliable service, at internationally competitive rates. We are ready to tackle any type of repair job, whether damage occurred through collision, fire or malfunctioning equipment, or routine dry docking.

We can dry dock vessels up to 500-ton dead weight.

STARZS Engineers at work

Afloat Repairs

Vessel Maintenance/Afloat Repairs

You can take advantage of the combined facilities, experience, manpower and expertise the Starzs Shipyard has to offer. With eighteen years' experience in ship repairs business, we can provide you with the best possible maintenance work your vessel requires. Whether at the shipyard or offshore, our team of technical experts can provide your ship with the required maintenance service thus guaranteeing zero downtime operations for the vessel.

Machinery Overhaul

After many years of operation, issues like wear and tear causes machines tools to lose precision and productivity. To keep your machines running better and longer, having the right maintenance and repair program is essential.

Starzs has a team of highly experienced Engineers for Main Engine, Generator and Fire Pump Repairs and Services including; installation, overhaul, routine maintenance, procurement and training.

Vessel Refit

Every ship ages. Advancing technical developments and a lifetime of service hours can lead a ship to lose its state-of-the-art title.

At Starzs, we pride ourselves with the ability to make that old ship come back to life giving you a completely refreshed vessel which is in compliance with the latest regulations and equipped with the latest innovations

Berthing Services

Starzs Shipyard is situated at the heart of the Onne Oil and Gas Freezone with over 210m of water front and a depth of over 8m. The facilities is most suited for berthing services operating 24hrs/7 days a week. It has the capacity to support the following;

- *Provision of fresh water supply to vessels*
- *Shore power connection to vessels*
- *Bunker operations*
- *Vessel chandelling operations*
- *Crew Change*
- *Pre-Hire inspections, OVID, Security Inspections*
- *Naval Crew Change etc*

Welding & Fabrication

We offer welding and fabrication services for vessel hull replating, tubular frames, and other custom components. We fabricate boat landing for vessels, gang way, etc. Our extensive fabrication capabilities include welding, forming, bending, and shearing. We are also equipped with a wide range of welding equipment for fabricating or assembling components through MIG, TIG, pulse, and GMAW or wire feed welding. In addition, an Electro Arc tap burner is used for safely removing broken drills or taps during fabrication. Our extensive welding capabilities enable us to assemble aluminum, and mild steel sheets.
